AM15 (+)

On & Off Wide Base / All Position

Structural design for better fuel efficiency & durability

Belt Structure
Minimized motion of belts for reduced heat generation.

Carcass
Optimized carcass structure for better ride and handling.

Improved Bead
Optimized bead profile for superior retreadability.

Kontrol Technology is Hankook Tire’s technology philosophy which reflects how the tire should perfectly control the interaction between the driver, the vehicle and the road while in motion. It is implemented to ensure Hankook Tire provides the greatest benefits and driving experiences to customers in terms of safety, driving comfort, handling, performance and environmental friendliness. AM15(+) is an example of a tire which embodies Kontrol Technology.

**On & Off Wide Base / All Position**

The AM15(+) is built for strength, traction, and long life. The wider, deeper grooves with enhanced stone ejector platforms will prevent stone drilling and maximize removal mileage. Enhanced tread compounding and four-belt structure yield outstanding durability. Applied tie bars prevent irregular wear and reduce noise.

### Optimized Designs
- Expanded groove width for enhanced traction performance
- Stone ejector rib in the middle of the grooves helps prevent stone drilling
- Tie bars between each block prevents irregular wear

### Increased Inner-volume of Tires
Overall inner-volume increased 6% compared to AM02; improved durability through the efficient management of heat emission

### Stabilized Footprint
Stabilized flat footprint reduces irregular wear

### Test Results
**Durability**
- Previous Pattern: 90
- AM15(+): 100

**Mileage**
- Previous Pattern: 100
- AM15(+): 110
